second site for Wyland Grille was the perfect choice. Wyland, being a renowned artist in Hawai'i, is well known for his ocean life art. The concept of responsible stewardship of the ocean supports the Wyland Grille vision. The ambience of the resort is a perfect match for Wyland Grille” said Dave Hanley, Managing Member of Wyland Grille.

By embracing the natural beauty of Ko Olina Resort and Marina, Ko Olina Station and Ko Olina Center provide a gathering place that is representative of the relaxed neighborhood and resort lifestyle. Special attention has been given to the outdoor surroundings of the resort’s only commercial retail centers totaling 56,000 square feet to provide restaurants and retailers an opportunity to encourage outdoor dining, walking and biking while enjoying the incredible outdoor environment.

Here, visitors and residents alike will have access to their desired retail and service needs with shopping and dining facilities such as *ABC Country Market*, an award winning gourmet market with an expansive deli and wine selection for the discerning Ko Olina resident or guest; and *Kimo Bean Coffee Co.* featuring locally grown and roasted, high quality coffee, Ko Olina Hawaiian Barbeque Restaurant as well as plans for pizza, ice cream and yogurt shops.

There will also be *Walking in Paradise*, a well known Hawai'i based designer shoe and accessory store. Plans are in motion for a home décor and furnishing store offering unique island styles, swim and surf wear, shipping services, dental and medical offices, hair salon and florist to name a few. The end result will be an impressive group of retailers, service providers and restaurateurs who will be making their home at Ko Olina Station and Ko Olina Center at the entrance to the resort.
